

Xinyuan LIANG

ESG | Hong Kong

liangxinyuan_lxy@126.com | www.liangxinyuan.world

Summary

MSc Environmental Management and Engineering student at The Hong Kong Polytechnic University, with an academic background in Hydrology and Water Resources Engineering. Experienced in ESG consulting, sustainability reporting, and environmental research, with practical knowledge of ESG frameworks, environmental data analysis, and sustainability practices. Combining engineering expertise with strong analytical and communication skills, committed to advancing corporate sustainability and environmental protection.

Professional Experience

Nov 2025 - Mar 2026	ESG Social Responsibility Consulting Intern, Shenzhen Qiantong Enterprise Management Consulting Co., Ltd. Shenzhen	- Supported 7 ESG consulting projects for A-share listed companies, covering key project phases including project initiation, executive interviews, ESG data analysis, and final project delivery across the manufacturing, biotechnology, materials, packaging, and fintech industries. - Prepared and managed 50+ ESG Information Request Lists, coordinating client document collection, information organization, and project communication to ensure efficient project execution. - Developed ESG executive interview guides, participated in 20+ on-site management interviews, documented interview outcomes, and identified ESG management practices and sustainability highlights to support corporate disclosures. - Assisted in organizing ESG project kick-off meetings involving 50+ senior executives and departmental representatives, gaining hands-on experience in client communication and on-site project coordination. - Collected, verified, and calculated ESG performance data to support environmental and social disclosures, ensuring the accuracy and consistency of reported information.
Mar 2025 - Jun 2025	Consulting Intern, Zerenyun (Beijing) Holding Group Co., Ltd. Shanghai (Remote)	- Participated in drafting ESG reports and framework construction for 10+ large central and state-owned enterprises across various industries for the year 2024, proficient in the CASS-ESG series reporting standards, ensuring the professionalism and compliance of the reports. - Assisted in completing various derivative services for ESG report projects for central and state-owned enterprises, such as "ESG Report at a Glance," corporate ESG indicator system organization, and blue book case submissions. - Assisted in the annual carbon emission calculations for a state-owned enterprise, providing support for corporate carbon management. - Completed the initiation and summary PPTs for multiple ESG report projects, proficient in the corresponding processes at each stage of the ESG report projects, ensuring smooth project progress.
Sep 2024 - Feb 2025	ESG Consulting Assistant, Shanghai Boxu Mingguan Technology Co., Ltd. Shanghai	

- Participated in data processing for a **carbon footprint calculation** tool for urban road lighting systems and assisted an A-share listed company with its 2024 carbon inventory, gaining experience in carbon management.
- Assisted a **Hong Kong IPO company with benchmarking ESG information in IPO disclosure documents**, ensuring compliance with **HKEX requirements** and enhancing transparency.
- **Led the successful bid** for a 2024 ESG project for an A-share listed company, assisting in project implementation and preparing for ESG training and kickoff meetings.
- Researched ESG guidelines from major exchanges and international standards (such as **GRI, SASB, IFRS, TCFD**), and became familiar with major international and domestic ESG rating standards and subtopics (such as **MSCI, S&P, Refinitiv**).
- Engaged in preliminary research and functional design of **ESG-related digital products**, demonstrating relevant product development skills.

Jul 2024 - Aug 2024

- Environmental Project Intern,**
Chinese Research Academy of Environmental Sciences

Beijing
- **Standardized data** for the green development evaluation index system of **130 cities** in a specific economic belt.
 - Assisted a municipal task force with the integration and statistical analysis of water and solid waste pollution sources.
 - Optimized and enhanced seven conceptual diagrams for **green development models**.
 - Consolidated and processed surface water monitoring data (**26 indicators, over 2800 data points**) for a county from 2019 to 2023.
 - Used Python to process monitoring data from **88** national surface water quality stations (**13** indicators, **over 3000** data points per station) across 11 cities in a province for 2022-2023.

Education

- Sep 2026 - present

The Hong Kong Polytechnic University
MSc in Environmental Management & Engineering
- Sep 2022 - Jun 2026

Heilongjiang University
B.Eng. in Hydrology & Water Resources Engineering
GPA: 89.3/100 | Ranking: Top 3% | IELTS: 7 (R8.5, L7.5, W6.5, S6)

Skills

- Technical Skills

GIS, AutoCAD, Origin, SPSS, GMS, Construction surveying instruments
- Certifications

LEED Green Associate (U.S. Green Building Council), National Level 3 Football Referee (Chinese Football Association)
- Languages

Chinese (native), English (fluent), French (DELF B2)
- Others

Photography (www.liangxinyuan.world), Tennis

Academic Projects

- May 2024 - Jul 2024

Study on Numerical Simulation of Groundwater
- Jan 2024 - Jun 2026

Spatiotemporal Variability and Driving Factors of Precipitation in the Guangdong-Hong Kong-Macao Greater Bay Area from 1901 to 2020, and Analysis of Extreme Precipitation

Publications

- Apr 2025

Co-author, "Understory Vegetation Regulated the Soil Stoichiometry in Cold-Temperate Larch Forests", *Plants-Basel* (JCR Q1, IF=4)
